

10 AI Prompts for Phone Cases

That Sell on Etsy

Interview-style AI prompts for sellers building stained-glass phone case designs — paste into Claude or ChatGPT, answer a few questions, and get a unique, print-ready design and listing. Built so no two shops make the same thing.

FOR CREATORS · SELLERS · SHOP OWNERS

The shortcut to *designs* that actually sell.

Ten interview-style prompts, each built to generate a complete, sellable stained-glass phone case design — not a copy anyone else can paste. Phone cases sell year-round, spike on every new phone release, and reward a specific, striking design.

Unlike a finished prompt you paste once, every prompt here makes the AI **interview you first** — about your subject, palette, buyer, and phone models — before it designs. That's what keeps your shop original and keeps you on the right side of Etsy's rules.

HOW TO USE THIS GUIDE

- Paste a prompt into Claude or ChatGPT. Answer its questions (SET 1, 2, 3) to shape your unique design and listing.
- Take the visual description it gives you into Nano Banana (4K) on Kittl: set a portrait ratio, generate, then Upscale to 4K and Remove Background.
- Read the Customization & Compliance note on each prompt and change the subject, palette, or composition so every listing is distinct.

01 *Floral & Botanical Cases*

Birth-month flowers, bouquets, and pressed-botanical looks — the evergreen gift buy.

Floral & Botanical Cases — Interview Prompt

I want to create a stained-glass-style floral phone case design to sell on Etsy. You are an expert print-on-demand designer. Before generating anything, interview me one set at a time so the final design is unique to my shop.

SET 1 — STYLE & AUDIENCE

- What flower or botanical should anchor the design? (e.g. peony, birth-month flower, wildflower mix)
- Who is the buyer? (e.g. gift shoppers, plant lovers, bridesmaids, moms)
- What feeling should it give — romantic, vintage, bold and modern, or soft and airy?

SET 2 — DESIGN & PALETTE

- What glass color palette do you want? Share 3–4 colors or a vibe (e.g. blush + amber + sage).
- How heavy should the black leading lines be — delicate or bold and graphic?
- Symmetrical bouquet, scattered, or a single statement bloom?

SET 3 — DELIVERABLES

- What phone models am I designing for? (affects safe zones around the camera)
- Do you want a matching set (e.g. 12 birth-month variations) or a single hero design?
- Should I also draft an Etsy title, 13 tags, and a description for this listing?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Change the flower, palette, and composition for every listing — never publish two near-identical designs. Birth-month flowers spin one prompt into 12 unique, personalized listings.

02 *Celestial & Zodiac Cases*

Moons, stars, and the 12 signs — a built-in 12-listing product line.

COPY & PASTE INTO CLAUDE / CHATGPT

Celestial & Zodiac Cases — Interview Prompt

I want a stained-glass-style celestial phone case design for Etsy. Act as an expert POD designer and interview me set by set before creating anything, so my design isn't a copy of anyone else's.

SET 1 — STYLE & AUDIENCE

- Celestial focus: crescent moon, full moon, sun-and-moon, or a specific zodiac sign?
- Buyer vibe — mystical and witchy, elegant and minimal, or bold and graphic?
- Should it feel premium and gold-accented, or moody and dark?

SET 2 — DESIGN & PALETTE

- Glass palette? (e.g. indigo + violet + gold, or black + smoke + silver)
- Add constellation lines, stars, or rays around the focal element?
- How ornate should the leading be — fine linework or chunky panels?

SET 3 — DELIVERABLES

- Which phone models, and should the design avoid the camera cutout area?
- Do you want all 12 zodiac signs as a matching collection?
- Generate the Etsy title, tags, and description too?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Recolor and re-letter each sign so all 12 are distinct. Swapping the palette per sign keeps the line cohesive but every listing unique.

03 *Animal & Pet Cases*

Cats, dogs, birds, butterflies — pet niches consistently print money.

Animal & Pet Cases — Interview Prompt

I want a stained-glass-style animal phone case design for my Etsy shop. You're an expert POD designer — interview me one set at a time before generating, so each design is my own.

SET 1 — STYLE & AUDIENCE

- Which animal, and what pose? (e.g. sitting cat, hummingbird in flight, butterfly wings open)
- Buyer — pet parents, bird watchers, a memorial gift shopper?
- Realistic portrait feel or stylized and decorative?

SET 2 — DESIGN & PALETTE

- Glass palette and any framing florals/leaves around the animal?
- Symmetrical (great for butterflies) or a natural off-center pose?
- Border style — ornate panel frame or clean edge?

SET 3 — DELIVERABLES

- Phone models and camera-safe placement?
- Want breed/species variations as a collection (e.g. 6 dog breeds)?
- Draft the listing title, 13 tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Change species, pose, and palette per listing. A 'rainbow bridge' memorial variant is a distinct, high-emotion product — keep its wording and design clearly different.

04 *Landscape & Nature Cases*

Mountains, ocean waves, forests, national parks — broad, giftable appeal.

COPY & PASTE INTO CLAUDE / CHATGPT

Landscape & Nature Cases — Interview Prompt

I want a stained-glass-style landscape phone case design for Etsy. Act as an expert POD designer and interview me set by set so my design is original.

SET 1 — STYLE & AUDIENCE

- Scene: mountains, ocean wave, forest, desert, or a specific park/region?
- Buyer — hikers, travelers, a specific state/park audience?
- Time of day mood: sunrise, sunset, or moonlit?

SET 2 — DESIGN & PALETTE

- Palette tied to that mood (e.g. coral + gold sunset, or deep blue + teal night)?
- Geometric panel style or flowing organic linework?
- Add elements like pine trees, sun rays, birds, or a wave crest?

SET 3 — DELIVERABLES

- Phone models and camera-safe zones?
- A regional collection (e.g. 5 national parks) or one hero scene?
- Generate the Etsy title, tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Tie each design to a specific place or scene and change the palette — location-specific listings rank better and stay unique.

05 *Geometric & Abstract Cases*

Mandalas, sacred geometry, rose windows, color-block — for buyers who skip literal subjects.

COPY & PASTE INTO CLAUDE / CHATGPT

Geometric & Abstract Cases — Interview Prompt

I want a stained-glass-style geometric or abstract phone case design for Etsy. You're an expert POD designer — interview me one set at a time before generating so the result is unique to my shop.

SET 1 — STYLE & AUDIENCE

- Style: mandala, sacred geometry, cathedral rose window, or color-block abstract?
- Buyer — minimalist, boho, someone wanting a 'premium expensive' look?
- How busy: intricate and detailed, or clean with few panels?

SET 2 — DESIGN & PALETTE

- Palette and whether the leading should be black or gold?
- Radial/symmetrical or asymmetric modern composition?
- Full-bleed pattern or a centered medallion on solid glass?

SET 3 — DELIVERABLES

- Phone models and safe placement around the camera?
- A palette-variation collection (same design, multiple colorways)?
- Draft the listing title, 13 tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Colorways are the easy unique-listing lever here: keep the structure, change the palette, and each becomes its own listing. Rose windows read as premium — price accordingly.

06 *Birth Flower & Personalized Cases*

Name + birth-flower designs — the personalization category that consistently outsells generic.

COPY & PASTE INTO CLAUDE / CHATGPT

Birth Flower & Personalized Cases — Interview Prompt

I want a stained-glass-style personalized phone case design for Etsy, built around birth flowers and names. You are an expert POD designer — interview me one set at a time before generating, so the design is unique to my shop and ready to personalize per order.

SET 1 — STYLE & AUDIENCE

- Which birth month(s) and flower(s) am I starting with? (e.g. October / marigold)
- Buyer — gift shoppers for moms, anniversaries, bridesmaids, new babies?
- Should the layout leave a clear space for a name or monogram?

SET 2 — DESIGN & PALETTE

- Glass palette tied to the flower, or a neutral palette that works for any name?
- Wreath/border layout (name in the center) or a corner spray?
- Hand-lettered, serif, or modern font feel for the name area?

SET 3 — DELIVERABLES

- Which phone models, and where should the personalization sit to stay camera-safe?
- Do you want all 12 birth-month flowers as a collection?
- Draft a personalizable Etsy title, 13 tags, and a description with a personalization note?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Build the design with an open name zone so each order is custom — personalization is both your best seller and your clearest path to unique, non-duplicate listings.

07 *Vintage & Art Nouveau Cases*

Tiffany-lamp and Mucha-inspired looks — the ‘expensive’ aesthetic that justifies a higher price.

COPY & PASTE INTO CLAUDE / CHATGPT

Vintage & Art Nouveau Cases — Interview Prompt

I want a stained-glass-style vintage / art nouveau phone case design for Etsy. Act as an expert POD designer and interview me set by set before generating, so the design is original to my shop and not a copy of existing art.

SET 1 — STYLE & AUDIENCE

- What vintage motif — flowing florals, peacocks, a woman’s profile silhouette, ornamental scrollwork?
- Buyer — vintage lovers, art-history fans, someone wanting a luxe heirloom feel?
- Era feel: 1900s art nouveau, 1920s deco, or Victorian?

SET 2 — DESIGN & PALETTE

- Muted antique palette (sage, dusty rose, gold) or richer jewel tones?
- Ornate gold leading or classic black leading?
- Full ornamental panel or a centered medallion with negative space?

SET 3 — DELIVERABLES

- Which phone models and camera-safe placement?
- A motif collection (e.g. four seasons in art nouveau style)?
- Generate the Etsy title, tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Describe an original motif in your own words rather than referencing any named artist or existing artwork — that keeps it your design and Etsy-compliant. The premium look supports a higher price point.

08 *Seasonal & Holiday Cases*

Fall, winter, and holiday designs — the Q4 spike that drives a sales surge.

COPY & PASTE INTO CLAUDE / CHATGPT

Seasonal & Holiday Cases — Interview Prompt

I want a stained-glass-style seasonal or holiday phone case design for Etsy. You're an expert POD designer — interview me one set at a time before generating so my design is distinct from the flood of seasonal listings.

SET 1 — STYLE & AUDIENCE

- Which season or holiday? (e.g. autumn leaves, winter pine, Halloween, Christmas, spring florals)
- Buyer — gift shoppers, seasonal-decor fans, a specific holiday audience?
- Festive and bold, or cozy and understated?

SET 2 — DESIGN & PALETTE

- Palette that signals the season without cliché (e.g. rust + gold for fall, not just orange)?
- Iconic motif (pumpkin, snowflake, holly) or an abstract seasonal palette?
- Bold leading or delicate linework?

SET 3 — DELIVERABLES

- Which phone models and camera-safe zones?
- A seasonal collection (all four seasons) for year-round sales?
- Draft the Etsy title, tags, and description with seasonal keywords?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

List seasonal designs 6–8 weeks early and make each holiday distinct. Building all four seasons turns a Q4 spike into year-round, non-overlapping listings.

09 *Faith & Inspirational Cases*

Scripture, symbols, and affirmations in glass — a deep, loyal, evergreen Etsy niche.

COPY & PASTE INTO CLAUDE / CHATGPT

Faith & Inspirational Cases — Interview Prompt

I want a stained-glass-style faith or inspirational phone case design for Etsy. Act as an expert POD designer and interview me set by set before generating, so the design is original to my shop.

SET 1 — STYLE & AUDIENCE

- What's the focal element — a short verse/affirmation, a symbol (dove, cross, lotus), or florals around text?
- Buyer — a specific faith community, recovery/affirmation audience, gift shoppers?
- Reverent and traditional, or modern and uplifting?

SET 2 — DESIGN & PALETTE

- Palette — soft and peaceful, or rich cathedral jewel tones?
- Should text sit in a banner, an arch, or a circular medallion?
- Gold or black leading?

SET 3 — DELIVERABLES

- Which phone models and camera-safe placement for any text?
- A series (e.g. multiple verses or affirmations) as a collection?
- Generate the Etsy title, 13 tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Use original wording or public-domain text and write your own affirmations rather than copying branded phrases. Keep each verse/symbol a separate, clearly different listing.

10 *Minimalist & Line-Art Glass Cases*

Simple, modern stained glass — the clean look that reaches the widest buyer.

COPY & PASTE INTO CLAUDE / CHATGPT

Minimalist & Line-Art Glass Cases — Interview Prompt

I want a minimalist stained-glass-style phone case design for Etsy — clean and modern, not busy. You're an expert POD designer; interview me one set at a time before generating so the result is unique to my shop.

SET 1 — STYLE & AUDIENCE

- What single simple subject — one bloom, a sun, a wave, a heart, a small geometric shape?
- Buyer — minimalists, modern/neutral-aesthetic shoppers, younger buyers?
- Airy with lots of negative space, or a bold simple statement?

SET 2 — DESIGN & PALETTE

- A tight 2–3 color palette (which colors)?
- Thin elegant leading or a few bold lines?
- Design on a white/clear 'glass' ground or a soft tinted ground?

SET 3 — DELIVERABLES

- Which phone models and camera-safe placement?
- A small collection of simple motifs in one consistent style?
- Draft the Etsy title, tags, and description?

CUSTOMIZATION & ETSY COMPLIANCE NOTE

Minimalism reaches the broadest audience but is easy to accidentally duplicate — vary the subject and palette each time, and lean on your consistent style to make the collection recognizably yours.
